I am a fresher in the vast world of web development. I am always open to gain knowledge and also share my own. I look forward to learn a lot and use it in order to be an asset to my workplace.

Education

Bachelor of science in Computer science Pune Vidhya Griha college of science and technology at Vidhya Griha | June 2019 - April 2022

I completed my BSc Cs Degree of three years and learned a lot about how computation and programming works. I look forward to effectively use this knowledge in my line of work and get fruitful results.

Key Skills

- HTML
- CSS
- Proficient in communication
- JavaScript(ES5,ES6,ES7,ES8)
- Git
- Redux (Redux toolkit)
- ReactJs

Projects

- DCode (November 2021-January 2022)

Summary:- DCode is created as my 6th semester project. It is a web application where the user can share ETH coins with others by first connecting their wallet (Metamask) with the application. You just need a Metamask wallet to get started on this application. But that isn't everything, with the help of Giphy, users can also send a GIF to others alongside a message. It's a place where transactions aren't just lifeless procedures but also fun.

Technology used :-

- ReactJs
- Metamask
- TailwindCSS
- Ropsten testnetwork
- Solidity

Features:-

- ETH coin transfer
- Users can also send messages to others
- Users can use GIFs so they don't get bored
- Very fast and effortless transactions.

- Cryptology (June 2021-August 2021)

Summary:- Cryptology is a fun place for all the new crypto currency beginners who want to learn about the cryptocurrencies, their market, their history, etc. It's a library with the information of all types of cryptocurrencies. It also shows their market values and how much changes happened per day.

Features:-

- Information about cryptocurrencies and their market
- Shows graph of the history and also information about their past
- Is a good platform for beginners to learn about cryptocurrencies.

Technology used:-

- ReactJs
- AntDesigns
- Redux
